

Journeying Together in a Synodal Manner with Catholic Members of Parliament in Malawi

The Catholic Parliamentary Liaison Chaplaincy Office in Malawi (*CPLO*), which operates under the Malawi Conference of Catholic Bishops (*MCCB*), held an interface evening with Catholic Ministers and Members of Parliament on 15th July, 2026. This was one of the many activities being undertaken by the Church in Malawi to implement the Synod on Synodality as a breakthrough of the Catholic Church's pastoral agenda. Just as the synodal implementation process stresses on the need for journeying together in communion while giving space for all to Participate in the Mission of Christ, politicians are also called to journey together in communion with the rest of Christ's Faithful in their localities. Besides participating in the Holy Mass that was presided over by His Lordship Bishop Vincent Mwakhwawa, the Catholic Politicians were also made aware that they too can join hands with the rest of Christ's Faithful in the Archdiocese of Lilongwe who have embarked on a project of establishing **an endowment fund** which will assist the Church to carry out its pastoral and social services (*The Church in Malawi has since its establishment in the country, 125 years ago, has rendered pastoral and social services that include health centers and schools in hard to reach places, where, the poor of the poorest are usually found*). In order to realize this dream, it is important that Christ's Faithful, including Catholic Politicians, in the Archdiocese, journey together in synodality towards becoming a synodal Church.
